ORLEANS HORNSILVER MINING COMPANY

Subscriptions for Treasury Stock at the rate of 25 cents per Share will be closed on September 15. This action is taken on account of the very encouraging development on the 600-foot level, by crosscuts which have shown the ore shoot to be continuous from the shaft to the face of the southeast drift, a distance of over 300 feet; also new discoveries on the upper levels.

Subscriptions should be sent direct to John S. Cook & Co., Goldfield, Nevada, before September 15, after which date no subscriptions will be accepted at the rate of 25 cents per share.

PEACE SESSION HOURS DRAGGED SLOWLY ALONG

PARIS, Sept. 8.—The hours dragged slowly for the allied premiers during the last meeting of the supreme council at Paris. While the representatives were translating the various speeches from French into English and Italian, and, in whole, away the time, the prime ministers seethed and drew various names on pieces of paper which they later threw into the waste basket.

SAFE INVESTMENTS

"There ain't no such animal." Nothing is safe in this unsafe world.

The man who waits for an absolutely safe investment might as well put in his time dipping up the ocean with a spoon.

Russian bonds were once classed as a safe investment—a Russian bond today wouldn't buy one white chip in a 10c limit poker game.

The man with nothing but a cellar full of German or Austrian bonds today would go hungry. So-called safe investments are only for the rich, the poor can't afford 'em.

The poor man's only chance is in making speculative investment. The \$4 a day man will never get rich buying 6 per cent bonds. He's got to take a chance or remain a \$4 a day man until the time comes for his friends to march by and remark: "How natural he looks."

No man ever got big returns from an investment that did not have some element of chance in it.

If you are already rich, buy bonds.

If you are a man of limited means, take a chance.

But use good judgment when you do. Be sure you are going to get a run for your money.

You are using good judgment when you buy FISH LAKE MERGER; that is, you will be if you buy now while you can get it at 10 cents a share. When it goes to several dollars a share it will be out of reach—it will then be a rich man's investment.

We have already proved to any reasonable man that we are not in this to drill the public but to drill for oil. We have proved that every man who puts a dollar in with us will get a square deal.

We have not yet proved that the oil is there, but we have proved that it is ALMOST CERTAIN that it is there, and at SHALLOW DEPTH!

The big boom may break loose almost any day now.

And this everybody knows—OIL at Fish Lake means millions for Nevada and a small fortune for every man who owns a thousand shares of this stock.

Get busy today. Make it snappy.
